Wrinkle / anti-ageing / pigment)		Add 50

ACCURETT

A Soft Freeze or otherwise known as Cryotherapy, using high pressurized CO2.

The tissue is treated by freezing the Inter-cellular fluid to destroy the unwanted cell structure, without damaging the healthy tissue and thereby promoting tissue renewal.

Treatable Lesions:

- * Age Spots (Liver Spots)
- * Pigmented Spots
- * Skin Tags
- * Sun Spots (Solar Lentigens)
- * Seborrheic Keratosis
- * Superficial Warts

Single Lesions (per lesion)	15'	50-100
