LUXE PLASMA CHANNELING & COLD PLASMA

LUXE PLASMA CHANNELING uses true plasma energy to create thousands of microchannels in the epidermis. This process stimulates collagen production, sterilizes the skin, and facilitates deeper penetration of active ingredients while producing immediate visible lifting that continues over a course of treatments.

ZERO downtime.

Plasma is ideal for: Tightening, Brightening, Diminishing wrinkles, Treating Hyperpigmentation

Per individual treatment	75'-90'	950
Treatment Package of 4 (1 treatment a week, including serum)	4 x 75'-90'	3800
Plasma Hair Rejuvenation		
Per individual treatment	30'	500
Treatment Package of 6 (1 treatment a week, including serum)	6 x 30'	3000

LUXE PLASMA LIFT (warm plasma)		
LUXE Plasma ionizes atmospheric gases to produce TRUE PLASMA. This is delivered to the skin surface, where it transfers energy to the dermis and triggers CONTROLLED TISSUE / SKIN CONTRACTION plus FIBROBLAST ACTIVATION. This results in natural collagen production cascade that structurally remodels the skin.		
This is not an Arc device, it is currently one of the first TRUE PLASMA devices in South Africa, and we are the first salon to offer this device treatment to clients.		
Results lasting 2 to 5 years.
